

FÉLIX LEDUC

+1 (438) 399-7438 • felix.leduc@mail.utoronto.ca • <https://www.linkedin.com/in/felix-leduc> • <https://github.com/Visiblo>

EDUCATION

University of Toronto, Toronto, Canada
Master of Information, Data Science

Sep 2025 – Apr 2027 (Expected)
CGPA: 4.0/4.0

McGill University, Montreal, Canada
Bachelor of Commerce, Finance

Sep 2017 – Apr 2020
CGPA: 3.6/4.0

- Completed an international exchange program at HEC Paris in France, focusing on global finance and luxury marketing
- Awarded "Most Innovative Idea" during a summer entrepreneurship program as a Schwartz & Reisman Scholar in Israel

SKILLS

Analysis: Python, R, SQL, SPSS, Excel, Google Sheets

Engineering: BigQuery, Snowflake, AWS, Git/GitHub, PySpark, dbt, Docker, Prisma

Visualization: PowerBI, Tableau, Looker, Matplotlib, ggplot2, PowerPoint, Google Slides, Figma

Modeling: RF, Causal Inference, TF-IDF, Regression, K-Means, KNN, Collaborative Filtering, PageRank, Naïve Bayes, ARM

Psychometrics: Classical Test Theory, Factor Analysis, Item Response Theory, Block Randomization, Counterbalancing

Languages: Native proficiency in English and French

WORK EXPERIENCE

UNIVERSITY OF TORONTO, Toronto, Canada

Research Assistant, Behavioral Economics (Rotman)

Apr 2026 – Present

- Extract and clean Polymarket transaction and Polygon wallet deposit data via APIs for large-scale analysis
- Apply causal inference and unsupervised clustering to on-chain data to operationalize retail loss-chasing behaviors

Research Assistant, Human-Centered Data Science (iSchool)

Apr 2026 – Present

- Conduct regression analyses on complex PIAAC survey data to model adult skills trends and policy mechanisms
- Synthesize statistical findings into bilingual technical reports and present data-driven insights to federal stakeholders

Research Assistant, Web Development (iSchool)

Apr 2026 – Present

- Design high-fidelity UI screens to guide front-end development and optimize user workflows in complex academic scheduling
- Architect a BCNF-compliant PostgreSQL database with Prisma ORM to connect the data layer to the application backend

CARBON COUNTS, Kelowna, Canada

Senior Data Analyst

Sep 2024 – Sep 2025

- Owned the end-to-end data pipeline and partnered with engineering to build scalable event frameworks
- Applied difference-in-differences across 10+ features via pre/post versioning, attributing an estimated 7% lift in D1 retention
- Reduced BigQuery compute costs by ~20% through aggressive query optimization and table partitioning

BEHAVIOUR INTERACTIVE, Montreal, Canada

Quantitative User Research Specialist

May 2023 – Jun 2024

- Partnered with internal teams to design and analyze cyclical surveys (n > 100,000) for Dead by Daylight
- Presented findings to 100+ stakeholders including C-Suite executives, directly influencing the product roadmap
- Leveraged causal inference and A/B testing methodologies to analyze the impact of feature launches and player sentiment

Data Analyst

Oct 2021 – May 2023

- Created and maintained activity, economy, and design dashboards for Meet Your Maker ahead of external tests and launch day
- Designed and validated the implementation of more than 20 game events with designers, programmers, and data engineers
- Acted as a key steward in data governance by automating data quality checks, ensuring high metrics reliability

Marketing Analyst

May 2021 – Oct 2021

- Assisted in designing and presenting Dead by Daylight's first user acquisition campaigns driving a 30% spike in reactivated users
- Automated the standardization of first-party sales data to improve the efficiency of marketing reports on Dead by Daylight

JUNO CAPITAL PARTNERS, California, United States

Developer Relations Intern

Jul 2020 – Sep 2020

- Supported business development efforts through client outreach and relationship management in the entertainment industry

Interests: Cooking, philosophy, gaming, fashion, literature, badminton, music, soccer, weightlifting, international movies, & anime
